
A & R WOODLAND CONSULTANTS LTD

arwoodlands@gmail.com

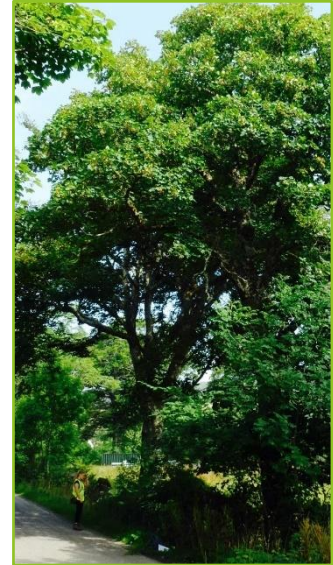

We would like to introduce you to a new dedicated Woodland and Arboriculture Consultancy company, providing professional advice on all aspects of tree and woodland management. We have over 30 years' experience caring for heritage and conservation trees and woodlands throughout Scotland for one of the leading conservation organisations in the UK.

Specialising in tree safety and risk management, we provide a professional and comprehensive tree inspection report service, ranging from individual trees to large scale tree inventory surveys.

Tree Safety Services include:

- Provision of detailed maps using latest GIS software of inspection risk zones and tree positions.
- Pest and disease diagnosis and recommendations with use of PiCUS Sonic Tomograph - ultrasound decay detection to assess structural integrity of tree.
- Full tree condition report with summary of suggested work identified.
- Management of identified tree work.

In addition to tree safety inspections we also offer the following services:

- Woodland and Arboricultural advice.
- Preparation and revision of woodland management plans.
- Arboricultural management plans.
- Woodland grant applications and advice: SRDP applications, felling licences.
- GIS specialist mapping service: Maps for grant applications, woodland management plans, tree surveying/inventory maps, GIS skills not limited to forestry.
- Trees and Construction site surveys to BS:5837.
- Woodland project management: Managing forest plans and forestry operations.
- Applications for work on trees in Conservation Areas and Tree Preservation Orders.
- Invasive species control advice.

Based in Inverness, our service covers all of Scotland; we are fully insured and qualified with BSc Sustainable Forest Management, City and Guilds and Lantra Professional Tree Inspection.
